Schedule

8(a) - HUBZONED CERTIFIED SMALL BUSINESS

THE COMPANY

GLOBAL ENGINEERING & TECHNOLOGY INC. (GET) is a minority-owned, 8(a) and Hubzoned certified Small Disadvantaged Business (SDB), providing administrative support services in the areas of security, emergency management, and engineering to Federal, State, local governments and the private sector. GET was founded in 1999 and its operations are led by GET's President and Chief Executive Officer, Mr. Anthony Maruri, who has 12 years of corporate governance in the areas of business development, project management, administrative support services, analysis, quality control, organizational structure, contract administration and marketing.

COMPETITIVE ADVANTAGE

GET's competitive edge is due to the firm's ability to provide an unparalleled quality of service that exceeds the expectations of our clients by offering fresh and innovative ideas, combined with having the resource of its alliances to support larger contracts, thereby providing stellar service over our larger competitors at a fraction of the cost. Ultimately, offering our costumers "more for less". Mr. Maruri has achieved this capability by assembling a management team of highly motivated and dedicated industry professionals. GET's staff are experts in problem solving and implementing long-term solutions to client issues and/or system deficiencies that are unique to each contract. GET also prides itself on being responsive to any client needs.
